PRESIDENTS MESSAGE:

It was wonderful to see everyone that came to last month's meeting. It was a bit different with the restrictions, but I think it worked OK. At this stage we will be going ahead with monthly meetings, however at the committee's discretion and following government advice, we may cancel meetings again in the future. Unfortunately the restrictions of the last meeting will stay in place for the time being, but I would like to thank everyone for doing so well at the last meeting.

From what I have seen around the place it seems to be a good year for flowering so far, and it has been wonderful seeing all of our member's plants on Facebook. By all means please keep sending them in to Tinka, especially if you are going to miss the meeting. It also looks like all the extra time at home is paying off as everyone's plants look to be in great condition. As always, I look forward to seeing you all again soon,
Dylan.

**There will be no tea or coffee or food. There is no guest speaker but one of our members will give a culture talk. Bring in any plant you may have concern with as someone is always ready to give advice.
We will have a raffle this month.**

SPRING SHOW AT GLENROSE SHOPPING CENTRE 10,11,12 SEPTEMBER.

At this stage this show is going ahead but will keep you posted if there is any change.

Set up is Wednesday evening 9th with benching from 5pm. We will need your support during the three days for sales and raffle. We will provide hand sanitiser but please bring your own face masks.

Please remember you need to have owned your plants for six months before benching at shows and meetings. Sale plants need to be well established, clean and pest free.

AGM is to be held at the September meeting and we invite members to join the committee to assist in running the society. There is a possibility we will be short of committee members so please consider helping out. Growing competition plants will be handed out at the AGM meeting.

SALES TABLE will be open for business as usual.

LIBRARY will be open for business as usual.

REGULATIONS FOR MEETING

Do not come to the meeting if you are feeling unwell.

Sign in on the form provided with your name, telephone number and time in and then note time as you go out and sign.

Observe social distancing – 1.5metres.

Sanitise your hands with your own sanitiser or the one provided.

At the end of the meeting wipe chairs with the sanitiser wipes provided and place chairs on the trolley.

Help out with wiping down the tables.

SPECIES OF EVENING grown by Paul McDonough

Maxillaria tonsbergii

One of the larger flowered and showier *Maxillaria*, the flowers on this plant present very well on long racemes that extend out of the foliage around the plant making for a good display. Like the majority of *Maxillaria* it is floriferous and has striking, deep coloured flowers

SPECIMEN OF EVENING Grown by Tinka Riddell

Maxillaria schunkeana 'Kingston'

These small plants are wonderful, and the unusually dark flowers are quite a curiosity, if they do require a bit of searching through the foliage to find. From I have seen of plants at our meetings and my own over the last couple of years, they seem to pretty much always be in flower once they reach a certain size. Definitely one to get a piece of if you can.

HYBRID OF EVENING Grown by Angie Sulfaro

Dendrobium engage x rhodostictum

This plant would have done equally well as the specimen of the night, as it was a large size and very well flowered. The flowers were held well above the foliage and made an impressive display.

NOVICE OF EVENING Grown by Penny Johnson.

Phal. unknown

I wonder if Penny can break last year's streak with her *Phalaenopsis* this year?
