WISHING YOU ALL A VERY HAPPY CHRISTMAS AND MAY THE NEW YEAR BE A GOOD ONE.

President's Report:

As we come to the end of a very challenging year we finally have a chance to hopefully return to normal, I am hoping that we will be able to do all the things we usually take for granted. I would like to see as many people as can make it for our Christmas meeting but if you can't attend I wish you and your families a very safe and happy Christmas and a great 2021.

At the Christmas meeting don't forget your raffle donation. Guy Cantor.

CHRISTMAS MEETING 17 December.

This meeting will feature annual point score prizes and awards. There will also be a plant for all members who benched during the year. Please bring in something gift wrapped for the raffle table. If you wish you can bring your own drinks to celebrate and maybe a Santa hat. Don't forget to sign in on the sheet provided and please take a ticket as this will be used for the plant distribution. There will be no door prize or benching prize.

This year we are donating \$1,000 to the Fisher Road School. This money is used to buy special equipment for the students.

NEW MEMBER - we welcome Mathew Roberts. Hope you enjoy your time with us.

SALES TABLE will be open for business as usual. Dylan will now run the sales table.

LIBRARY will be open for business as usual.

Sadly Cathy Sinclair has resigned from the position of Treasurer. If anyone would like to take up this position please let the President or Secretary know. There is plenty of back up help if required.

FOR SALE

Face masks with orchid flower, triple layer cotton fabric for sale @ \$11.00.

GET WELL.

Wishing Emelia Henwood a speedy recovery after her surgery.

Penny Johnson had a fall and suffered a broken elbow and wrist. Hope you have a speedy recovery Penny. **Hybrid plant of the evening** grown by A. Sulfaro *Dendrobium engae x johnsoniae*

A wonderful primary hybrid of two section Latouria Dendrobiums from PNG. Many of these crosses make spectacular plants for the show bench, with interestingly shaped and textured flowers. Species plant of the evening grown by C. Polis

Encyclia prismatocarpa 'Galaxy'

This plant always does well at our meetings, and as is often the case, there were two plants at the meeting of varying quality, which helps to clearly illustrate the things that the judges are looking for. It comes from montane forests in Mexico and Central America between 1200 to 2500m in altitude.

Novice plant of the evening grown by P. Johnson

Phalaenopsis unknown

As previous, although well worth mentioning the large flower count on this one.

Specimen plant of the evening grown by L & B. Dobson Laelia purpurata

A medium sized, hot to cool growing plant from Brazil where it is found as an epiphyte, high in the canopy of wooded hillsides. A highly variable species, there was an amazing display of these in flower at the meeting, representing a number of different varieties.
