PLATEAU COMMUNITY CENTRE, 36
BLANDFORD STREET, (OFF TELOPEA
STREET), COLLAROY PLATEAU. THERE IS
PLENTLY OF PARKING OUTSIDE THE HALL
WITH EASY ACCESS.**

President's Report:

Another great meeting with plenty of quality plants benched, it is great to be back to something approaching a normal meeting. Our next meeting will have guest speakers for the first time in 12 months. please come along to support them and learn something from excellent growers.

The next major event will be our auction on the 18th April. Tinka has received plenty of grower's sheets and it looks like we are going to have another big auction with 435 plants.

As usual we will need all the help we can get on the day so mark it in your diaries.

Lastly we are in need of someone to assist with the treasurer role until the AGM in September, if you can help please see Tinka or myself Guy

Guest Speakers: This month we have Arnold Lockrey and David Munroe who will be giving a talk on how they grow their plants in waterwell pots.

SALES TABLE will be open for business as usual. Dylan will now run the sales table. Members are requested not to enter the store room area and please mind your social distancing when queueing for purchases. No sales available in April so get your supplies at this meeting.

LIBRARY will be open for business as usual. No library in April.

MEMBER'S AUCTION 18TH APRIL 2021.

As this is the last meeting before the auction please remember to come along and help out on the day. Set up is from 7.30am. Should be a good day as there are lots of interesting plants up for grabs.

REGULATIONS FOR MEETING

Do not come to the meeting if you are feeling unwell.

Sign in on the form provided with your name, telephone number and time in and then note time as you go out. There will be a QR code but you will still need to sign in on the sheet provided for our records.

Observe social distancing – 1.5metres. Masks are recommended but not compulsory.

Sanitise your hands with your own sanitiser or the one provided.

At the end of the meeting wipe chairs with the sanitiser wipes provided and place chairs on the trolley.

Help out with wiping down the tables.

GET WELL – Wishing Bill Dobson a speedy recovery after his recent back surgery.

September 23 AGM and Member's Meeting

October 28 Member's Meeting

November 14 Auction

November 25 Member's Meeting

December 5 Christmas Party

December 16 Member's Meeting

Grown by Kathleen Nelson.

A cool growing epiphyte or lithophyte from Mexico, Guatemala and Honduras in forests up to 2700 meters in elevation. Very well flowered with a good flower count and still 2 spikes to open. A great display

Specimen of Evening: *Dendrochilum uncatum* v *longispicatum* grown by Paul McDonough

NOVICE OF EVENING Stanhopea graveolens

Found in the Philippines and Taiwan as a small sized, warm to cold growing epiphyte or lithophyte occurring at elevations of 500 to 2300 meters. A showy *Dendrochilum* that holds its flowers well out from the foliage.

Species of Evening: Stanhopea inodora grown by Seb Torrisi

Another great Stanhopea, this one is found in Mexico, Belize and Nicaragua in wet montane forests on trees at elevations of 800 to 1500 meters as a medium sized, hot to cool growing epiphyte or occasional terrestrial along roads on steep banks.

Hybrid of Evening: Epi. Volcano Trick grown by Angie Sulfaro

Always a crowd favourite, the striking orange colour really stands out and with the large, well presented flowers, as well as a high flower count, it makes a great display on the bench. Always commented on by many whenever it is shown.

FEBRUARY BENCHING POINT SCORE 2021

OPEN DIVISION

- | | |

Novice members are reminded to ask an experienced grower which class to bench their plants in.

You can also do a little research to see where the plant comes from as this is a good indication where the plant should be benched.

A trip down memory lane. Our 40th Anniversary dinner at the DYRSL.
